

Connect to Eduroam using Mac

1. Click the **Wireless Icon** in the upper right corner of the screen, near the clock, and select **Eduroam**
2. You should get the following prompt. Leave it on **Automatic** and enter your **Eduroam username** and regular RRU Computer (Academic) Account **password**. and click **Join**

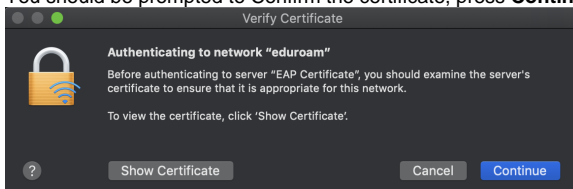

Your Eduroam Username

Your Eduroam username is the same as your Office 365 username. It is in the format of **Username@royalroads.ca**. So if d2brown is the username you log into other RRU resources, then your Eduroam username is **d2brown@royalroads.ca**

3. You should be prompted to Confirm the certificate, press **Continue**

4. You should now be connected to the Eduroam wireless. If you are not, repeat step 1 and you should connect

You're Done! You should now be successfully connected to the Eduroam wireless network, and should automatically connect anywhere it is available.
